

FUTUREPROOF YOUR INVESTMENT

When we install or upgrade your security system Optic also has its team of qualified and experienced security professionals on hand to ensure that your investment in protecting your people, information and assets is kept up to date and optimised across hardware, software or procedure.

With a comprehensive range of service and maintenance programs available, we will regularly check all aspects of your security solution are operating as designed. Including project management, renewal of any licensing & software updates as required, plus we will ensure you are up to date with regulatory changes or recommended processes.

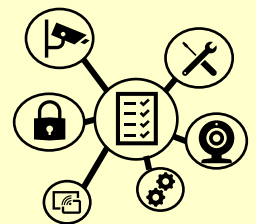

PEACE OF MIND VIA A FULLY MANAGED PROGRAM

Utilise our expertly skilled and fully licensed team of professionals to give you peace of mind with no need to invest in an expensive in-house team.

Flexibility in our service offering means we can provide service and maintenance as a standalone offering, or as part of an enterprise wide security and IT services portfolio. We work with you to design a tailor made risk-based solution.

BUSINESS BENEFITS

- Your investment is kept fully maintained & up to date ensuring value for money
- The system continues to meet your design criteria
- We will take advantage of manufacturer software updates for you
- Maintain compliance and insurance requirements
- The system is fully optimised via effective operator training for correct & efficient system use
- You avoid additional personnel costs with embedded certified specialists on site
- A reduced budget variance associated with ignored upgrades, repairs or unknown incumbrances
- **Choice of service levels – standard or full suite 24/7**

WE WILL

Understand your security needs

- By understanding your business aims and operation flows, we can help design security solution that works for you, your employees, suppliers and contractors.

Complete on site and network audits and surveys

- Optic converged security specialists will audit your building (s) and all access points in conjunction with any existing security measures.

Review of recommendations and options

- Optic will discuss with your team the recommended approach, products and how best to train your staff in best practice management for your purpose designed solution & bespoke deployment

WE ARE OPTIC

Optic Security Group is Australasia's largest independent provider of converged security (physical, personnel and information) risk management solutions, and we've been doing it for over 30 years.

We are excited to partner with you in establishing and enhancing your security risk strategy and governance, and in designing, integrating, installing, maintaining and servicing networked security systems.

MARKET LEADING PRODUCTS AND APPS

Optic utilises industry leading products from manufacturers such as Gallagher, Inner Range, and Assa Abloy just to name a few...

We will *train your team* how to best manage your system, as well as manage service, maintenance, updates and reporting to simplify the process of your security solution.

A QUALIFIED SECURITY PROFESSIONAL TO DESIGN YOUR SECURITY SOLUTION

In accordance with our **Enterprise Security Risk Management (ESRM)** approach, our methodologies and solutions are aimed at lowering your exposure to security risks that could affect your organisation operationally, financially, or reputationally. We deliver risk-based – not product-based – solutions.

We will work closely with your Security and IT team to ensure security solutions are fit-for-purpose in terms of selection, design, deployment and maintenance, including regular risk, threat and vulnerability assessments and converged security audits.

We will ensure our delivery is also de-risked and reliable, including in relation to the availability of security product (supply chain) and equipment (including PPE), and appropriately qualified and experienced technical personnel, and Business Continuity Planning.
