Visitor Management & Worker Safety

KEEPING EVERYONE SAFE

Visitor Management systems can track when visitors, guests or staff arrive, limit where they are allowed to go, control the length of their stay and even match them against public or staff background data. Simply put, these systems give you maximum control over the people accessing your facilities, helping you to keeping facilities and people, safe and secure.
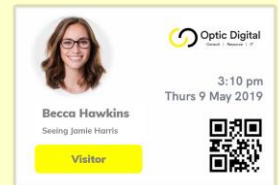

GET UP AND RUNNING NOW

We work with you to make setup a seamless, quick and effective solution from day one. Our team of trained and experienced IT and security specialists will help you get the expertise you need without having to resource your own team.
We will help you understand varying equipment options different requirements demand, and how to ensure you comply with any health and safety requirements at the same time. We offer an extensive range of options for the modern working environment no matter what type of business you operate – corporate, government, retail, health etc.

Manage the *sign in* process via a visitor and staff management system, and you can automatically 'self serve' everything from health and safety agreements through to automatic log outs if people leave a geographical perimeter.

BUSINESS BENEFITS

- Desktop, mobile or iPad device options to suit various environments
- Customised branding on all interfaces
- Smart phone/tablet/desktop *sign in* options
- Automatic SMS & email notification to staff at *sign in*
- Identification labels printed on the spot
- Contractor and staff time and attendance verification
- Online, dynamic dashboards to monitor all data and alert to exceptions
- Self –serve flexibility
- Dashboard reporting

WE WILL

Understand your security needs
- By understanding your business aims and operation flows, we can help design security solution that works for you, your employees, suppliers and contractors.

Complete on site and network audits and surveys
- Optic converged security specialists will audit your building (s) and all access points in conjunction with any existing security measures.

Review of recommendations and options
- Optic will discuss with your team the recommended approach, products and how best to train your staff in best practice management for your purpose designed solution & bespoke deployment

WE ARE OPTIC

Optic Security Group is Australasia's largest independent provider of converged security (physical, personnel and information) risk management solutions, and we've been doing it for over 30 years.
We are excited to partner with you in establishing and enhancing your security risk strategy and governance, and in designing, integrating, installing, maintaining and servicing networked security systems.

LAS LOCAL ALARM SOLUTIONS

A QUALIFIED SECURITY PROFESSIONAL TO DESIGN YOUR SECURITY SOLUTION

In accordance with our **Enterprise Security Risk Management** (ESRM) approach, our methodologies and solutions are aimed at lowering your exposure to security risks that could affect your organisation operationally, financially, or reputationally. We deliver risk-based – not product-based – solutions.

We will work closely with your Security and IT team to ensure security solutions are fit-for-purpose in terms of selection, design, deployment and maintenance, including regular risk, threat and vulnerability assessments and converged security audits.

We will ensure our delivery is also de-risked and reliable, including in relation to the availability of security product (supply chain) and equipment (including PPE), and appropriately qualified and experienced technical personnel, and Business Continuity Planning.
