

Video Conferencing

CREATE A GREAT VIDEO CONFERENCING CAPABILITY FOR YOUR TEAMS TO USE 24/7

Video conferencing offers a host of opportunities to businesses. Whether it's engaging remote workers, collaborating across departments and locations, interviewing job candidates or saving on travel time and carbon miles, the technology is efficient, cost-effective and scalable.

At Optic Digital we live this every day ourselves and our breadth and depth of IT expertise in installing this for hundreds of customers means we can ensure you get the system that works best for you and your needs.

LOGITECH WITH MICROSOFT TEAMS

Working with market leading products and platforms, we've partnered with Logitech and Microsoft to bring you a fully integrated conferencing solution. We combine the Logitech Tap, Rally and Meetup product lines with Microsoft Teams. This builds on the great Microsoft collaboration and productivity tools you're probably already using. Our solution ensures you have high quality, but simple to use hardware, that helps encourage people want to video conference.

Key Features

- In our opinion, the easiest to use and best integrated conferencing hardware on the market.
- An enterprise-ready solution at a very competitive price - ready for any size room and any size business.
- Fully Integrated with Microsoft Office 365 Exchange Online and Teams.
- Automatically shows calendar appointments, enabling a truly one-touch conferencing connection.
- Enables employees to collaborate across departments, locations, and other organizations.
- Licensing already covered as part of your Microsoft Office 365 licensing.
- Implementation costs are low compared with other solutions.

Microsoft Teams

Small meeting rooms

This solution is great for meeting rooms of 2 - 6 people, which makes it just right for keeping virtual teams in contact and branch offices talking.

Included:

- Logitech Meetup camera/speaker/microphone
- 4K Ultra HD camera with 5x HD zoom
- Beamforming microphone array for accurate sound
- Motorised pan/tilt lens
- Pre-configured for Microsoft Teams

Larger meeting rooms

This is perfect for meeting rooms of four or more people; like board rooms and collaboration spaces. Just about any size room can benefit from this solution.

Included:

- Logitech Rally cameras, speakers, and microphones
- 4K Ultra HD camera with adaptive pan, tilt, and zoom
- Table-deployed mic pods (2 as standard, 7 max)
- High quality speakers with echo cancellation
- Flexible mounting options for all components.
- Pre-configured for Microsoft Teams
